

## EXPRESSION OF INTEREST TOOLS

---

### About the Expression of Interest (EOI)

The purpose of the EOI is to equip Ontario Trillium Foundation (OTF) staff with the information needed to assess your project and your group. In many ways, the EOI acts as the first part of a Youth Opportunities Fund (YOF) application.

Most of the questions are answered by checking answers from a drop-down list. There are a few narrative questions where your group can share details about your group and idea. A Project Plan and Budget are also part of the EOI.

OTF staff will review your eligibility, your readiness to do this work, the potential impact of your project, and how well you understand the needs, interests, and experiences of the parents, guardians and caregivers you want to work with.

Some EOIs will be shortlisted and invited to complete the Family Innovations Grant Application with an organizational mentor (OM).

### Updating your responses at Grant Application (If shortlisted)

Please note that, if your EOI is shortlisted, you will only be able to change or update your responses for questions marked with >>>

## EXPRESSION OF INTEREST QUESTIONS AND TIPS

### TAB 1: TYPE OF GRANT

**TAKE NOTE!** If your EOI is shortlisted, you will not be able change or update your responses in this section of the Grant Application.

1. The Family Innovations Stream has two different types of grants. Each grant type has a different purpose and eligibility criteria. Which grant type are you interested in?

Check one only.

- ☐ Family Innovations Test grant  
☐ Family Innovations Scale grant

**A Grassroots Test grant** is an opportunity for groups to test a new idea or to strategize around an issue in their community or to research an issue that matters to the group.

**A Grassroots Scale grant** is for more established groups that have already delivered core project activities over a two-year period. These groups are able to demonstrate the success of the model that is being scaled. If you are not sure which grant type is right for your group, email us at [yof@otf.ca](mailto:yof@otf.ca)

The Family Innovations Stream has two different types of grants. You have selected the Scale grant.

2. Funding for Family Innovations SCALE grants is for specific purposes. How will you scale this project? Choose one only.

- ☐ Improve the quality of a current or existing project in order to deepen impact  
☐ Expand a current project to reach more parents, guardians and caregivers.

Proceed if you are certain you have chosen the right type of Family Innovations grant. If you are unsure about which type of grant to choose, reach out to us at [yof@otf.ca](mailto:yof@otf.ca) or reference EOI tools. Please know that this decision cannot be reversed without the support of the YOF team.

**[IF SCALE SELECTED]:** Has your group delivered core project activities for at least two-years?

Check one only.

- ☐ YES  
☐ NO

**[IF NO]:** Scale grants are for groups that have already delivered core project activities over a two-year period. This means the group has experience working together and all core activities have already been implemented. This ensures that there is a solid foundation in place to scale the project.

Click on "PROCEED" if you are certain you have chosen the right type of Family Innovations grant. If you are unsure about which type of grant to choose, reach out to us at [yof@otf.ca](mailto:yof@otf.ca). Please know that this decision cannot be reversed without the support of the YOF team.

Grassroots work is about community-led and community inspired work. Shared identities and shared lived experience are critical to our understanding of the term 'grassroots'. This stream is a place for parents, guardians, and caregivers to organize around issues they face, to imagine solutions, to test new ideas and to scale them. It is required that core group members share identities and experiences with the parents, guardians and caregivers they hope to engage.

First & last name	xx@xx.com			Volunteer Relations and Member Services. I will oversee and coordinate the volunteers who will be part of the support circles and training workshops. I will recruit volunteers to be mentors and workshop facilitators. I will also guide them to our group and project. I will work part-time (~ 7 hours per week on average).	I am a founding member of our organization and have focused on recruiting and orienting our new members. At the time when I came here from Jamaica, I did not have a lot of resources or supports as I was raising my two sons. I found that when I met other Black mothers/parents in similar situations as me, it made me feel supported. That's why I created this group for Black newcomer mothers.	Leading our group and organizing the support circles and training workshops helped me be organized and learn how to network. I grew the membership of our group to 5 people in the first 3 months.  I recruit and train volunteers through my volunteer work at my local community centre (past 4 years).  I have strong administrative skills through my day job (use Excel to manage program data and office budget).

23. How do you currently reach and engage your selected parent, guardians, and caregivers (PGC) in your project. [Maximum 350 words]

## Describing the Impact

»» 24. What are the most important changes you expect to see in your selected parents, guardians, and caregivers., Focus on sharing changes that can be achieved through your project activities. Identify three to six changes. [Maximum 100 words for each change]

- Change 1 (required)
- Change 2 (required)
- Change 3 (required)

- Change 4 (optional)
- Change 5 (optional)
- Change 6 (optional)

Some changes can happen almost immediately, and others can take a little longer to happen. Some examples of immediate changes are changes in knowledge, skill levels or attitudes about oneself and others. Other types of changes may take longer. For example, changes in behaviour, relationships or leadership. Use change words such as: increased, enhanced, strengthened, improved, expanded, prevented, reduced etc. After you write your change statements, take a final look to make sure you can achieve all of these through your project activities.

IF YOU ARE APPLYING TO DO RESEARCH, use the Impact Table to describe both changes that parents, guardians, and caregiver will experience through their participation in the research process and the longer term benefits of this research to families.

**EXAMPLE:** Indigenous parents, guardians, and caregivers have increased their cultural knowledge and understanding of Traditional ceremonies and activities.

**EXAMPLE:** Black parents, guardians, and caregivers have increased their knowledge of policies, rights, regulations, and structures within the justice and penal systems

**EXAMPLE:** Newcomer mothers will know how to research and apply for higher education (university, college etc.)

» 25. How many parents, guardians and/or caregivers do you expect to reach or directly engage through the life of your grant? # \_\_\_\_

Only include the number of parents, guardians and caregivers (PGC) who will participate in your project activities. When conducting a research project, only include those PGC who make up the project's research team (including group members, researchers, analysts, and any PGC who plays a consistent and significant role in your research project). Only count a person once even if you will have multiple touchpoints with them. If approved for funding, this number will be included in the grant contract.

**EXAMPLE:** You have funding for 2 years. Your project runs on a 10-week cycle. You plan to have 15 mothers participate in each cycle. You plan to deliver 2 cycles per year. The number of people you will directly impact is 60 (15 mothers x 2 cycles per year x 2 years of funding).
